

NIKKA FROM THE BARREL

SKU: JWNB

It may be a solid, rich, uncompromising whisky (even the famous square bottle is designed to appear strong and stout) but Nikka from the Barrel is dangerously smooth and easy to drink. Many whiskies, encompassing malt and grain from both sherry and bourbon casks, are selected by Nikka's master blenders before being married together in large vats. The result is a complex array of flavours, with caramel, toffee apple and vanilla fudge coming through especially powerfully at the higher proof. A splash of water is all that you need – the rest is waiting ready in the glass.
