

MAKER'S MARK

SKU: AWMM

The only thing Bill Samuels Sr. wanted was a whisky he would really like to drink. Maker's Mark is a unique, full-flavored bourbon that is smooth to consume since it is brewed with soft red winter wheat rather than the traditional rye. It is never bitter or sharp. They manually rotate each barrel to preserve continuity, and they mature their bourbon to taste rather than duration. Just as Bill, Sr. would have wanted, every single bottle of Maker's is still painstakingly sealed in their distinctive red wax in the distillery in Loretto, Kentucky.
