

M DRY MASTIHA LIQUEUR

SKU: LIDMM

Mastiha is born as a precious tear, dropping from the famed mastic trees found only on the Greek island of Chios. From ancient times, mastiha was renowned for its wondrous properties. Greek and Roman doctors praised its therapeutic powers, and it was widely used throughout the Aegean and Mediterranean seas in cosmetics, chewing gum, food and drink – and even as an aphrodisiac.

Today, with its European Union Protected Designation of Origin (PDO) status, the reputation of this unique Greek product has spread throughout the world.
