

TEQUILA CABEZA

SKU: LITC

Tequila Cabeza is a vegetal and earthy tequila produced for The 86 Co. and is perfect to sip on its own, to enliven a refreshing Paloma or to cut through citrus based Margaritas.

From the fields, where groups of trained jimadores harvest the ripened agaves with their sharp coas, to the distillery where a slow fermentation takes place during the cooler months to lend as much rich flavours as possible to the liquid, making Tequila Cabeza is lengthy and intensive process.

Finally the liquid is distilled twice in copper pot stills before being cut down with distilled water to a healthy 43% ABV resulting in a robust tequila full of rich vegetal notes.
