

FIX HELLAS LAGER

SKU: BBF033

When Greece was trying to recover, after its liberation from the Turks, Ioannis Fix came back from Munich to find his father. Ioannis moved to Heraklion (Attica) after his father was shot dead in Magoufana (currently the area of Pefki), to start producing beer, as many Bavarian officers had moved to Greece during that period. As a result, Ioannis Fix began to make the first beer in Greece, which was named after his family, FIX. FIX Hellas combines the high quality and reliability of a historic brand, which is one of the first choices of consumers, not only in Greece but also in many foreign countries, where it is exported.
