

EAST LONDON LIQUOR CO. RUM

SKU: RUELLCR

Tasting Notes: Using the the finest Demerara rum, this contributes a fruity, rich sweetness to the rum. The spirit is micro-distilled in a two-column wooden Coffey still, the world's only surviving wooden column still.

This unique process gives it a complex and woody flavour. It is then aged in ex-bourbon casks for at least 3 years, which adds spicy vanilla notes.
