

AALBORG NORDGULD AQUAVIT

SKU: LIAQNOR

V&S Distillers (formerly Danish Distillers) is Scandinavia's largest producer and supplier of spirits for consumption, and the world's largest producer and exporter of aquavit. The company was founded in 1881 by C.A. Olesen and C.F. Tietgen; two enterprising businessmen who resolved together to create a company that would produce and sell the finest Danish spirits. Aalborg is their leading brand of Danish akvavit.

Launched in 2007, Aalborg Nordguld is a sumptuous aquavit with a unique taste. It is the world's only aquavit distilled with amber - the Gold of the North. The amber oils used during distilling give body, a touch of resin and pine and a hint of citrus to the taste.

In addition to this, Aalborg Nordguld is made from classic aquavit spices and fennel and is then matured in Spanish sherry casks to get its smooth and harmonious finish. The result is an exclusive, golden and aromatic aquavit which is the perfect accompaniment to a good meal or with coffee.
