

FERDINAND'S SAAR DRY GIN GOLDCAP CHAPTER 2021

SKU: GIFG2021

Only the heart of the once-a-year distillation finds its way into Ferdinand's Saar Dry Gin Goldcap. For the Ferdinand's Goldcap 2021 there are three special botanicals in the centre of the group of botanicals: Green Walnut, Stevnsbaer Cherry and Schönberger Plum giving this extra small batch its unique and full-bodied character. In combination with Ferdinand's Red Vermouth, which is also refined with these three botanicals, it is the tribute to the perfect Negroni! Only the best the treasury has to offer - a 2018 Rausch Auslese Goldkapsel of the VDP estate Forstmeister Geltz-Zilliken from Saarburg - is used for the infusion. The incomparable concentration and intensity of this Goldcap selection makes this distillate a unique limited bottling. Open a new chapter with Ferdinand's and the Goldcap of 2021. On the nose, wonderfully aromatic, overripe plum, cherry, currants, ripe red fruits, fragrant juniper and fresh citrus. On the palate, bittersweet ripe plum, juicy maraschino cherry, herbal spice with green walnut, fresh Riesling, fig and dry intense juniper.
