

## AVANTIS ESTATE HARMONY RED

SKU: GRAHMR20

Avantis Estate is located on the island of Evia, just northeast of Athens, and is recognised for its pioneering role in modern Greek viticulture. The estate, founded by Apostolos Mountrichas, focuses on sustainable farming and precision winemaking. Harmony Red is typically a blend of Syrah and indigenous varieties such as Mavrotragano or Vradiano, cultivated in the mineral-rich, volcanic soils of central Evia. Fermentation occurs in temperature-controlled stainless steel tanks, followed by maturation in a blend of French oak barrels, where the oak influence is used to enhance structure and complexity without masking the varietal character. The result is a wine that exhibits poise, depth, and a distinct regional identity.
