

SPIRIT OF HVEN MAJA'S RASPBERRY VODKA

SKU: VOHRV

Maja's Raspberry Vodka is created and made by spirit of Hven's Master Distiller (Henric Molin) as a tribute to his grandmother Maja. When Henric remembers his summers with grandmother Maja, he fondly thinks of her "huge" and delicious raspberries that they went out and picked together. So Henric has created his summer memories in a bottle. When Maja's Raspberry Vodka is made, the raspberries are divided into two parts. The first half is macerated for a week with the spirit and the other part is mixed and distilled in a fantastic 100-l pan, named Balthazar.

The two different parts extract different wonderful flavours and mixed together to form a raspberry vodka that can be served neat over ice, or, with a mixer. Off dry with a clean raspberry flavour, mouth-wateringly zippy.
