

## PORTO CARRAS ASSYRTIKO MAINLAND

SKU: GRPCAM

The vines for this wine grow organically at 250 metres above sea level on sandy clay soils. The altitude allied to the maritime influence tempers the heat of the summer, while the sea breezes and dry climate create perfect conditions for healthy vines

This is a superb dry Assyrtiko. Unoaked, precise notes of preserved lemon, tea, white flowers and sea air, given extra texture and depth from lees stirring. Tangy, concentrated and mineral.

A superb dry Assyrtiko from near Thessaloniki in northern Greece, made by organic Greek pioneer Porto Carras. Unoaked, precise notes of preserved lemon, tea, white flowers and sea air, given extra texture and depth from lees stirring. Tangy, concentrated and mineral.
