

AALBORG JUBILÆUMS AQUAVIT MINIATURE

SKU: LIAQJ005

Aalborg Jubilæums Akvavit came on the market in 1946 as a festive marking 100 years of the launch of Aalborg Taffel Akvavit. Hence the name.

It is a golden luxury aquavit made from dill and coriander seed distillates and rounded off with American white oak extract. Unlike most other aquavits, it is completely caraway-free. This gives it an elegant, balanced taste with dill and coriander as the main forces, but with fine contributions from star anise, citrus and caramel in slightly smaller roles.
