

CHÂTEAU SAINT-PIERRE 2015, ST JULIEN

SKU: FRCSP

The belief at the time that the 2014 was better than the 2015 in the northern Médoc is not being borne out with years in bottle (maybe Montrose!). The 2014 at Saint Pierre is excellent, but it's the 2015 that you want to go to if you're looking for depth and future potential - this is loaded up with nuance and aromatic complexity. 2015 was the year where everything was new at Saint Pierre - newly renovated and expanded winery, more plot by plot vinification with tanks that range from 78hl to 135hl, with vertical press to replace pneumatic press, plus an expanded barrel cellar that allowed more than half of the press wine to be aged separately in barrel before being added to the blend. 50% new oak for ageing, harvest September 21 to October 7, Eric Boissenot consultant. 95/100 Jane Anson
