

DOLIN GÉNÉPY LE CHAMOIS (75CL SHORTFILL)

SKU: LIDGC

Génépy is a legendary alpine herbal liqueur, unique to the Savoy region that dates back many hundreds of years. While comprised of a multitude of alpine herbs, the most prominent is a petite and rare variety of Artemisia found principally in the high mountains of Savoy. Its fresh alpine fragrances and herbal flavours have long been associated with the mountain air and adventure. Dolin is one of the few remaining houses that still relies on local herbs foraged in summer, and distillation in a venerable old copper alembic. Le Chamois is Dolin's oldest Génépy recipe, dating back to 1821, when Joseph Chavasse first established what is today Maison Dolin. Its gentle sweetness and heady herbal character have pronounced notes of chamomile, sage and mint. To many French consumers, the Dolin name is inextricably linked to this signature Génépy recipe and the alpine experience. Why not try as a Chartreuse alternative.
