

## BARAHONDA ROSADO

SKU: SWBABR

The Spanish region of Yecla, in the southeast of the country, is one of only 3 wine regions in the world where the focus is on Monastrell, aka Mourvèdre; the others being nearby Jumilla and Bandol in Provence. The largely sandy soil and high altitude means that this is one of the only European wine regions to avoid total devastation from Phylloxera, with many vineyards still planted on original pre-phylloxera rootstocks. The high altitude of the vineyards allows the hot summer days to be tempered by cold nights, giving wines which balance richness with refreshing acidity.
