

## KI NO BI SEI NAVY STRENGTH KYOTO DRY GIN

SKU: GIKINS

KI NO BI SEI is made according to the same intricate production method as the original KI NO BI, using 11 botanicals distilled in six distinct flavour categories, known as the 6 Elements. The final blend has been recalibrated by the distilling team to bring out the best of each botanical at the higher strength. This bottling is at the traditional Royal Navy strength of 54.5% abv. In contrast with the original KI NO BI, which has a delicate and gentle profile, KI NO BI SEI has a thicker mouthfeel and full-bodied flavour, which works well in cocktails.
