

## BRENNÉN & BROWN GINGER GIN

SKU: GIBBG

Recognising the absence of a ginger-infused gin in the market, founder and managing director, Rich Bamber, decided to launch Brennén & Brown distillery in 2012. Based in Cheltenham, Gloucestershire, Brennén & Brown now produces four different styles of gin along with various limited-edition season gins each year.

Brennén & Brown employ traditional maceration and distillation techniques to craft small batch artisanal gins in the London Dry style. What sets them apart from other more commercial operations is their ethos of using only seasonal and natural ingredients sourced from their own garden and those of friends and family. For their ginger edition, fresh ginger along with a handful of other natural botanicals are steeped in a neutral base spirit to extract their flavours and aromas before distillation. This method ensures a rich and balanced flavour profile, allowing the botanicals to infuse thoroughly.
