

MEILI VODKA (SIGNED BOTTLE)

SKU: VOMEILISIGNED

Jason Momoa and Blaine Halvorson have redefined vodka with Meili, a spirit inspired by the elements of fire, water, earth, and air. Crafted with the purest mountain water and locally sourced grains, Meili is distilled once to preserve its natural, smooth essence. Bottled at 40% ABV and matured in fresh mountain air, it offers a bright, crisp profile perfect for any occasion.

The result of nine years of meticulous research and dedication, Meili reflects the passion to create a vodka unlike any other—one that tells a story and evokes true enjoyment. With a commitment to sustainability, each bottle is made from 100% post-consumer recycled glass, making every bottle unique.

Meili's extraordinary flavour begins with water from a 300-million-year-old aquifer in Montana, one of the purest sources in the U.S. Paired with proprietary grains from local farms, the spirit undergoes a single distillation to preserve its distinctive sweetness. Aged to perfection, it captures a harmonious balance of elements, delivering a smooth, refreshing taste that elevates every sip.

This award-winning vodka challenges the conventions of the spirit world—an unforgettable creation worthy of a toast.
