

CORRALEJO BLANCO 38%

SKU: LITCB

Corralejo Blanco Tequila is an unaged, 100% Blue Weber agave tequila crafted in the historic Hacienda Corralejo, located in the state of Guanajuato, Mexico. Bottled immediately after distillation at 38% ABV, it offers a pure and expressive profile that highlights the vibrant character of fresh agave. This Blanco tequila is produced using only mature Blue Weber agave, which is harvested by hand and slow-cooked in traditional stone ovens. One of Corralejo's distinctive features is its use of the Charentais distillation method—a technique adapted from cognac production. Unlike the more common column stills used in tequila-making, this double distillation process in copper pot stills allows for greater flavour retention and a smooth, aromatic result.
