

SHARISH BLUE MAGIC GIN

SKU: GIBM

Distilled in a traditional Portuguese copper still it uses a combination of 9 botanicals carefully selected: Juniper, Cinnamon, Coriander seeds, Clove, Vanilla, Orange Peel, Lemon Peel, Bravo Esmolfe Apple PDO (Protected designation of origin) and Lemon verbena.

With the particularity that the last four botanicals are used fresh. Due to the different characteristics and points of evaporation, the botanicals slowly distillate separately, allowing a greater quality in the final distillation. During the process, all the impurities are removed so the result is as limpid as possible.

Sharish is a smooth gin with a unique aroma. Very citric specially from the orange zest and a sweet flavour from the Bravo Esmolfe Apple and from the vanilla.

The juniper it's also easy to identify considering the softer notes of cloves and coriander seeds. At the final we can taste a little spike coming from the Lemon verbena.
