

## WITCHMARK SINGLE ORIGIN ENGLISH VODKA

SKU: VOWMSO

Set in the heart of southwest Wiltshire, the beautiful nine-thousand-acre Fonthill Estate provides the best environment to produce spirits. Certified B-Corp in March 2025, and rooted in environmental responsibility and community values, the distillery partners with local organisations that reflect its mission for a more sustainable future.

Their barley, the ingredient from which the vodka is made, comes from a regenerative local farm, while solar power and eco-friendly bio-propane ensure a clean production process. Smart heat recovery tech cuts energy waste, and leftover grains are turned into renewable energy. Even the bottles tell the story, crafted from 100% recycled glass.

Indulge in the award-winning taste of Witchmark Single Origin English Vodka. Handcrafted in Wiltshire and limited to just 1,250 bottles, this small-batch vodka has already earned GOLD at the World Drinks Awards and an Outstanding GOLD from the IWSC.
