Don Julio Gonzalez's legacy began in 1945 in the Highlands of Jalisco, where he founded the La Primavera distillery with a desire to bring his love for the land, agave and local traditions to the world. From its origins, Don Julio was committed to producing tequila of the highest quality, blending tradition with innovative approaches. Don Julio was one of the first producers in the region to age tequila beyond the standard regulations and even developed his own strain of yeast, giving his tequilas their distinctive profile to this day.
