

SWIMMING PIGS GIN

SKU: GISWIM

Swimming Pigs Gin represents the islands of The Bahamas and the Caribbean. The name was even inspired by Big Major Cay (also known as Pig Beach), a cay in the The Bahamas where feral pigs indeed swim in the beach's shallow waters!

Tasting Notes: Swimming Pigs Gin is made with a selection of fruits and botanicals. Vibrant flavour profile throughout, filled with zesty fruit and subtle spice. Distinct grapefruit, lime and pine notes, with sweet simmering notes of coconut, almond, vanilla and sharp green apple in the background. A soft hint of spice lingers on the palate, leading to a long, warming and complex fruit-forward finish.

Awards: Bronze award winner of The London Spirits Competition 2018
