

## TINY REBEL CWTCH GIN

SKU: GITRCW

Probably our most famous beer, Cwtch is deliciously refreshing and citrusy. These are qualities we often look for in a gin, so it made total sense that we should recreate in when we got distilling.

Heaps of citrus peel delivers that signature note, and it's smooth and cool just like a good gin should be. It's one to make you super cosy and chilled for the rest of the day, so give yourself a Cwtch.

Serve with Fever-Tree Naturally Light tonic, and Garnish with juniper berries, strawberry and mint.
